Proposal Submission	3/14/20	3/15/20	1																																													
Set up environment on Windows	3/15/20	3/16/20																																														ı
Setting up Ionic Framework	3/18/20	3/18/20																																														
Creating Sample Application	3/20/20	3/20/20																																														
Figure out hooks / async problems	3/25/20	4/15/20																																														
User Interface Mockup	4/5/20	4/10/20																																														
Integrating Login	4/13/2020	4/16/20																																														
Creating/Integrating API basics	4/17/20	4/18/20																																														
Integrating Firebase authentication	4/18/20	4/25/20																																														
Add GPS functionality	4/20/20	4/20/20																																														
Testing/fixing bugs	4/20/20	4/26/20																																														
Improve desgin	4/21/20	4/21/20																																						Т								4
Deployment to Mobile Platform	4/22/20	4/26/20																																			П											
Deployment to Desktop Platform	4/22/20	4/26/20																																														
Put together charts, video	4/27/20	4/29/20																																														4
